SG1J SG1J	Just now talked to the DIA Office head who has this program in his com expects a call from you on Monday to arrange for the first step - a visit by h office so he can give us his perspective and start the process of getting detailed brief data for the blue ribbon panel we plan to do first. (I told him that was our plan). I attend the meeting, but do not want to delay it so please meet with him without me if next week after tuesday interferes with the meeting.
